## DETAILED ACTION

### *Papers Received*

Applicants' amendment received December 14, 2006 is acknowledged.

### *Claims*

The claims are 19 to 25.

### *Species Election*

Upon receipt of the Amendment adding new claims, restriction between the following patentably distinct Species A and Species B is required:

- A. The metallic molding stamper invention in claims 22 to 24 requiring search in class 428, subclass 544.
- B. The hydrophobic polymer molding stamper invention in claim 25 requiring search in class 428, subclass 351.

Applicants are required under 35 U.S.C. 121 to elect a single species for prosecution on the merits. Currently claims 19 to 21 are generic.

Applicants are advised that a reply to this requirement must include an identification of the species and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicants are advised that a reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
